Publication Manual

of the American Psychological Association, Fifth Edition

With millions of copies sold, the *Publication Manual of the American Psychological Association* is the style manual of choice for writers and students in psychology, sociology, business, economics, nursing, social work, criminology, and other disciplines in which effective communication with words and data is fundamental.

The Fifth Edition has been revised and updated to include

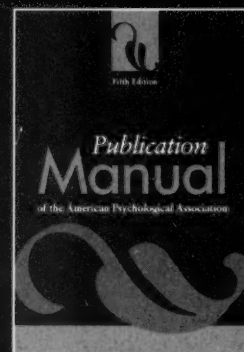

- The latest guidelines and examples for referencing electronic and on-line sources
- New and revised guidelines for transmitting papers electronically
- Simplified formatting guidelines for writers using up-to-date word-processing software
- Updates on copyright and permissions issues for writers
- An expanded and improved index for quick and easy access.

New and experienced readers alike will find the *Fifth Edition* a complete and essential resource for writing, presenting, or publishing with clarity and persuasiveness. 2001. 439 PAGES.

PsycINFO, a family of interrelated information services, provides access to the literature in psychology and related behavioral and social sciences in a variety of ways. PsycINFO consists of

Psychological Abstracts (PA) journal (ISSN 0033-2887). The comprehensive monthly compilation of nonevaluative summaries of the serial and book literature in psychology and related disciplines.

Issue. The monthly PA issues contain entries listed under 22 major classification categories, with some categories having subsections, as shown in the Table of Contents. Under each classification heading, the records are arranged alphabetically by first author, and are numbered consecutively each year.

Indexes. An author, brief subject, and book title index appear in each monthly issue. An expanded and integrated annual index is published at the end of each volume.

PsycSCAN®: Clinical Psychology. A quarterly print publication and electronic subset of the PsycINFO database containing abstracts from subscriber-selected journals in clinical psychology.

Neuropsychology Abstracts. Formerly known as *PsycSCAN: Neuropsychology*. A quarterly print publication and electronic subset of the PsycINFO database covering clinical and human cognitive experimental areas of neuropsychology.

Psychoanalytic Abstracts. Formerly known as *PsycSCAN: Psychoanalysis*. A quarterly print publication and electronic subset of the PsycINFO database containing abstracts of psychoanalytic content.

The Thesaurus of Psychological Index Terms® 9th Edition (2001). A compilation of the controlled vocabulary used when creating records for PsycINFO databases.

PsycSCAN®: Applied Psychology. An electronic-only subset of the PsycINFO database that contains abstracts from subscriber-selected journals related to applied psychology.

PsycSCAN®: Behavior Analysis & Therapy.

An electronic-only subset of the PsycINFO database that contains abstracts of content covering behavior analysis and therapy.

PsycSCAN®: Developmental Psychology.

An electronic-only subset of the PsycINFO database that contains abstracts from subscriber-selected journals in developmental psychology.

PsycSCAN®: LD/MR. An electronic-only subset of the PsycINFO database containing abstracts related to learning and communication disorders and mental retardation covering a wide range of topics, including theories, research, assessment, treatment, rehabilitation, and educational issues.

PsycSCAN®: Psychopharmacology®. An electronic-only subset of the PsycINFO database with targeted information about clinical and experimental psychopharmacology.

Key to the Text

Examples are number coded to provide definition of their elements.

COVERAGE LIST

1. Journal title. Bold type identifies those journals that published articles appearing in this volume year.
2. Publication year of first issue scanned. Asterisks within parentheses indicate that coverage by *Psychological Abstracts* began with the first issue of the publication.
3. Journal ISSN.
4. Journal frequency. The number of issues published per year. "IR" indicates that an irregular number of issues are published.
5. Publisher name.
6. Publisher address.

AUTHOR INDEX

1. Author. The Author Index is intended to be a name only and not a person index. "Adams, P." will be listed separately from "Adams, Paul" even though the name may refer to the same person; however, two listings for "Adams, P." may refer to two different authors.
2. Abstract referenced.

BOOK TITLE INDEX

1. Book Title.
2. Abstract referenced.

2004 COVERAGE LIST

The PsycINFO Coverage List includes journals and other serial publications that are scanned regularly, abstracted selectively, and included in *Psychological Abstracts* (PA), ClinPSYC, and the PsycINFO database. In cases where a journal publishes articles only in a language other than English, the abstracts for these journal articles will be included in ClinPSYC, and PsycINFO database, but will not appear in *Psychological Abstracts*. A dagger (†) after the title indicates this occurrence. For journals that publish articles both in English and in other languages, only the abstracts of the English language articles will be included in PA while both English and non-English language articles will appear in ClinPSYC, and the PsycINFO database.

The presence of a serial title in the list does not imply that all articles contained in issues of that serial will subsequently appear in PsycINFO's databases or print products. Journals likely to publish articles relevant to behavior are included for regular systematic scan of their content. Articles are selected specifically and individually for their relevance to psychology.

Whenever possible, publisher name, address, frequency of publication, and ISSN are included for each publication to facilitate access to original documents by users. The date in parenthesis indicates the publication year of the first issue scanned by PsycINFO of a particular serial. Asterisks within parenthesis indicate that coverage began with the first issue of publication. An N/A after an ISSN indicates that the number was not available. Bold type identifies those journals that published articles appearing in this volume year.

This Annual Author Index contains over 100,000 references to the authors and editors of approximately 40,000 abstract records published in the 12 monthly issues of *Psychological Abstracts* from January 2004 through December 2004. A companion work, the Annual Subject Index, references these records by topic.

In this volume, all the authors and editors whose work was abstracted or cited in *Psychological Abstracts* for the periods indicated are listed alphabetically by surname. However, the Author Index is intended to be a name index only and not a person index. "Adams, P." will be listed separately from Adams, Paul, even though the names may refer to the same person. Two listings for "Adams, P." may also refer to two different authors. Entries consist of author name(s), and the *Psychological Abstracts* abstract number under which the entry appeared.

Healing Plots

The Narrative Basis of Psychotherapy

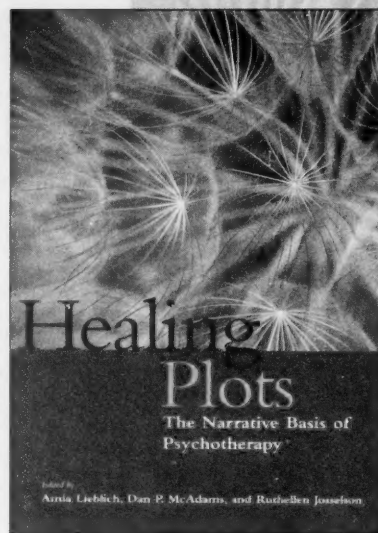

Edited by Amia Lieblich, Dan P. McAdams,
and Ruthellen Josselson

Therapy is the process of developing a narrative that helps bring integration and coherence to a chaotic life. In *Healing Plots*, the editors bring together a diverse group of psychotherapist-scholars to explore the relationship between story-telling and therapy.

Drawing directly from practice experiences with a wide variety of clients, the chapter authors present illuminating case studies of lives being examined in therapy. The authors ground their contributions in the shared theory that effective therapeutic interventions often involve the co-construction of healing narratives in the face of personal, moral, and social adversity. Using a variety of perspectives, contexts, and cultural settings, the authors examine how therapists and clients negotiate narrative conflict and complexity, present types of stories that significantly animate the psychotherapeutic process, and discuss how life stories can change through, and as a result of, therapy.

By recounting and deconstructing therapeutic experiences with clients, contributors collectively demonstrate how narratives shape and humanize therapists' work, and how the process of therapy enriches our understanding of narratives and their place in contemporary studies of human identity. **2004. 222 pages. Experiences of Depression

THEORETICAL, CLINICAL, AND RESEARCH PERSPECTIVES

Sidney J. Blatt

Experiences of Depression

Theoretical, Clinical, and Research Perspectives

Sidney J. Blatt

In *Experiences of Depression*, Sidney J. Blatt explores the nature of depression and the life experiences that contribute to its emergence. In a profound contribution to understanding the nature of depression, Blatt identifies two types of depression that have distinct roots. One, which he terms anaclitic depression, arises from feelings of loneliness and abandonment. The other, which he terms introjective

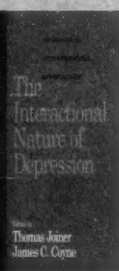

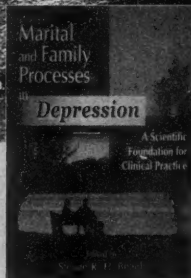

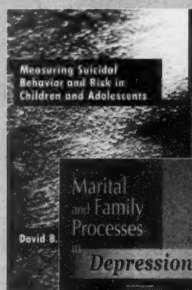

depression, is born of feelings of failure and worthlessness. Recognizing these fundamentally different depressive experiences has important clinical implications and has spurred a remarkably wide range of research, the development of assessment tools, and impressive strides in understanding the nature, etiology, and treatment of this profoundly painful and far-reaching disorder. With clarity and meticulous care, Blatt traces the extensive systematic investigation of these two types of depression and the role of disturbances in mental representations. **2004. About 400 pages. Perspectivism in Social Psychology

The Yin and Yang of Scientific Progress

Edited by John T. Jost, Mahzarin R. Banaji, and Deborah Prentice

In this volume, a diverse group of leading social psychologists explores topics important to the work of William J. McGuire, one of the pioneers of social cognition: the concept of self, language and social cognition, political ideology, the history of social psychology, and contextualist philosophy of science. Each chapter delivers a perspectivist analysis of the questions central to the authors' own area of study. As a result, new and emerging agendas for social cognition have emerged, united under the theme of perspectivist methodology and the study of thought systems. Like McGuire's own work, chapters balance the scientific components of theory, methodology, and empirical data. 2004. About 352 pages. Hardcover.

Concise Rules of APA Style

The *Concise Rules of APA Style* offers essential writing and formatting standards for students, teachers, researchers, and clinicians in the social and behavioral sciences. This easy-to-use pocket guide, compiled from the fifth edition of the *Publication Manual of the American Psychological Association*, provides complete guidance on the rules of style that are critical for clear communication.

Though the APA *Publication Manual* remains the best source for broad background information about scientific publishing—providing guidance on designing research, identifying the parts of a scholarly article, understanding the process of journal publication, and submitting articles for publication—the *Concise Rules* targets only those rules writers need for choosing the best words and format for their articles.

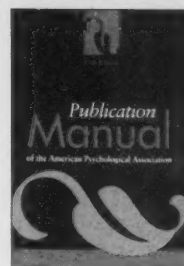

Available in a lightweight, spiral-bound format, the *Concise Rules* will be an invaluable reference tool. 2005. About 250 pages. Spiralbound.

Critical Thinking About Psychology Hidden Assumptions and Plausible Alternatives

Edited by Brent D. Slife, Jeffrey S. Reber, and Frank C. Richardson

Critical Thinking About Psychology covers six major psychology subdisciplines, ranging from clinical psychology to neuropsychology. In analyzing what is taken for granted, this

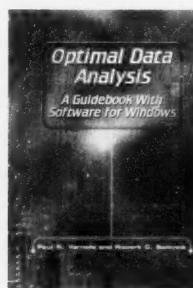

volume teaches critical thinking skills at the same time that it moves psychology in exciting new directions. Contributors critique unquestioned tenets of the field such as the dualism between mind and body; the truth of efficient causation, and the discrete unit known as the individual. 2005.
